## Your friends may smile

But that tired feeling

Means danger. It

Indicates impoverished

And impure blood.

This condition may

Lead to serious illness.

It should be promptly

Overcome by taking

Hood's Sarsaparilla,

Which purifies and

Enriches the blood,

Strengthens the nerves,

Tones the stomach,

Creates an appetite,

And builds up,

Energizes and vitalizes

The whole system.

Be sure to get

Only Hood's.

Vic Murdock kindly remarks that Iola is a mighty good town and then qualifies the statement by adding that she makes idiotic attacks on Wichita occasionally. Iola merely casts an occasional sad thought or remark about Wichita's "bier."

J. H. Newbarn, M. D., of Whitefield, one of the foremost doctors in the Indian Territory writes: "I have recommended and sold Beggs' Blood Purifier for the past five years and am pleased to say it has no equal in any blood medicine that I have ever tried." Sold by Spencer, North Side Druggist.

A 43-pound catfish was caught in the Neosho above the dam Saturday by Mr. McWilliams, the same man who captured one of the two 47-pounders recently taken. It is beginning to be rumored that Bowersock's herd of catfish at Lawrence has broken out of the barn while his attention is distracted elsewhere.

Salt Lake City, Utah. Beggs' Mfg. Co. After the fever of circus day has worn off one is puzzled to understand where the Hummel show got that poster to its name. "Combined with the American Racing Association." No other evidence being offered it may be safe to suppose that the words have reference to the swift aggregation of grafters which form a close combination with the show.

Humboldt Herald: The band boys have secured the services of a fine triple-tongue solo cornetist, who will be here the first of the week. He will play with the boys right along, as he is a baker by profession, and has secured a situation with Mrs. Monnot. His name is Peter Boniface, and he comes from Bethany, Mo. He will be with the band at Iola during the Log Rolling of the Modern Woodmen.

Judge Smith has had a mighty interesting month in the matrimonial line. Everybody seemed to be waiting to capture the special prize offered at the Fair. Wednesday he jumped up, however, and issued a license to J. L. Holt, of Moran, and Grace Maxam, of LaHarpe. Friday he did still better, performing the ceremony which forever bound together Lee A. Wirtz, of Indianapolis, Ind., and Pearl Peters, of Chanute. The Judge looks ten years younger since it happened.

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective Remedy than Chamberlain's Colic, Cholera Remedy," writes Dr. R. E. Robey, physician and pharmacist, of Olney, Mo.; and as he has used the Remedy in his own family and sold it in his drug store for six years, he should certainly know. For sale by Campbell & Burrell.

The Mosan Herald, after taking a few hundred shots at the REGISTER for standing up for Iola, has started on a new tack for that town. In one item it asks: "Census in Moran in 1900, 5000; what do you think of that?" Elsewhere in the paper the statement is made that 11,000 people are coming to the Iola Log Rolling. This is respectfully submitted to Fairplay as a good inspiration for column article on the subject: "Lying About Your Town's Size," or "What is the Origin of the Chigger," or some such masterpiece.

People have got the idea here in Iola that smelters use more gas than most any other kind of factory. As a matter of fact a glass factory uses much more gas. The pressure allowed on the pipes feeding a smelter is from two to six ounces, while in the blast furnace of a glass factory a twenty-five pound pressure is not a rare thing.

El Dorado Republican: David Bedell, of Iola, has been here since Sunday packing his goods preparatory to moving. The goods were shipped to Iola this afternoon and Mr. and Mrs. Bedell and two young children will start in the morning to drive through with their horse and surrey. Harry went this morning. Mr. Bedell and his brother George, are conducting a large dry goods and jewelry establishment at Iola, and are doing a good business. They are well pleased with the outlook.

"Let me give you a pointer," said M. F. Gregg, a popular conductor on the Missouri Pacific railroad. "Do you know that Chamberlain's Colic, Cholera and Diarrhoea Remedy cures you when you have the stomach ache? Well, it does." And after giving this friendly bit of advice, the jolly conductor passed on down the aisle. It is a fact that thousands of railroad and traveling men never take a trip without this Remedy, which is the best cure for bowel disorders in the world. 25 and 50 cent bottles for sale by Campbell & Burrell.

Talking about one dog and another, John Otten owns a litter of eleven two-weeks' old greyhound puppies that are full blooded. They are dammed by a dog which took the second premium in the races at Hutchinson last year when only a little over a year old and are a mighty fine lot of dogs.

A few months more and John proposes to chase the fleeing cottontail and jackrabbit in full cry. The sight will recall memories of early days when an Englishman named Griffith used to ride a fine thoroughbred horse with the hounds over the Allen county prairies.

Topeka Capital: The committee having in charge the Log Rolling at Iola have decided not to blow in a lot of money hiring "orators," but will instead devote it to making the natural gas display a wonder and delight to all who attend. The members of this committee must be particularly sensible men. The fact that they have made up their minds to this effect will have a tendency to increase the attendance. Kansas is lousy with "orators" who think they can talk, and who are always looking for a chance to make their bow before

Bromoline will positively cure a cold in 24 hours. No cure, no pay. Spencer, North Side Druggist.

Grand Place: With open saloons Girard fell off in population 299 for the year ending March 1st, 1898, and 62 in school population. Without open saloons the population increased 221 during the year ending March 1st, 1897. Do open saloons pay?

The Ft. Scott Tribune is authority for the statement that the Gillilan Flagstone Co., of that place, has the order for stone for the Cherokee-Lanyon smelter at Rose Hill. The order is for fifty car loads of stone. The same company has just furnished seventy-five car loads for the Lanyon smelter at Iola.

People have got the idea here in Iola that smelters use more gas than most any other kind of factory. As a matter of fact a glass factory uses much more gas. The pressure allowed on the pipes feeding a smelter is from two to six ounces, while in the blast furnace of a glass factory a twenty-five pound pressure is not a rare thing.

the public. People go to celebrations to be amused and have a good time not to listen to crippled flights of "oratory." \* \* \* In the reclassification of the rank of Kansas cities according to population Iola jumps from 31st place to the 25th; a great gain, showing that the Iola folks have not been making any unwarranted claims when speaking of the growth of their town.

The need of a good Spring Medicine is almost universal and Host's Sarsaparilla exactly meets the need. Be sure to get Host's.

Ex-Senator R. N. Allen, of Chanute, and Mr. S. W. Brewster, of Thayer, were in Iola today and made the REGISTER a pleasant call. Mr. Brewster is an old college friend of the editor of the REGISTER.

There are several more manufacturing enterprises in the wind which will be announced as soon as definite plans and arrangements have been made. Don't you ever doubt that the coming year is going to be a hummer for Iola.

Charlie Hauser was up from Humboldt township today and brings a good report from that part of the country. He says his son threshed 12 bushels an acre of flax from a 20-acre field, and that with one more sower the corn will be made.

John Chiles, who works at the smelter, was seized with cramps Sunday morning and two doctors worked over him. He was put under the effects of morphine and partly relieved of his pain, but is still very sick today. His spinal column seems to have been somewhat irritated and his chief trouble is now with that.

Mr. J. E. Garrison, a carpenter and builder who has been at work in Iola for some time, left for Savonburg today to get his family. He will drive up tomorrow with his wife and two children and occupy the house just north of S. M. Jennings. This addition alone to Iola's population puts her ahead of Eldorado in 25th place.

Prof. and Mrs. W. S. Picken and their family started this afternoon to Emporia where they go to make their home by reason of Mr. Picken's appointment on the Faculty of the State Normal College. While rejoicing in his promotion from High School to college work—a promotion all the more creditable because it came wholly unsolicited,—the Iola friends of Mr. and Mrs. Picken find it none the less hard to give them up. They have for so long borne a conspicuous part in Iola life, their abundant talents have been given so unreservedly to every good cause and their influence, wherever it touched, has been so wholesome and helpful, and uplifting, that they will be missed a long time. The best the REGISTER can wish for them is that they may find in Emporia the friends they will so richly deserve and the work they are so well qualified to do.

The GRAPHOPHONE

The most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduces the music of bands, or choruses, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment at home or in the social gathering. You can sing or talk to it and it will reproduce immediately and as often as desired, your song or words.

Other so-called talking machines reproduce only records of cuts and dried subjects, specially prepared in a laboratory. But the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm never fades. The reproductions are clear and brilliant.

Graphophones are sold for \$10 up

Manufactured under the patents of Bell, Tainter, Edison and Gramophone. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.
